March 2011

Dear Madame/Sir,

The 2011 EuroSpine Congress will be held in the beautiful and glamorous city of Milan, (Italy), from October 19 to October 21, 2011.

Over the years the annual EuroSpine meeting has developed into the premier gathering for spine specialists in Europe. It is regularly attended by over 2,000 delegates as well as representatives from the Industry.

It receives the largest number of abstract submissions for any meeting held on the continent, as well as submissions and attendees from all over the world. As with previous meetings, the 2011 conference will maintain the highest academic standards with approximately 80 of the best submissions accepted for oral presentation, and a further 200 accepted for poster presentation. This offering will be complimented by industry and society hosted workshops, pre-meeting gatherings on specific topics and expert lectures.

We kindly ask for your cooperation in forwarding the postcards or our link, to your members who could be interested in the event. At this stage of the organisation of the event it would be really helpful to reach the highest number of people that might be interested in participating in the congress.

For further information please visit the Congress website www.eurospine2011.com.

Waiting for your kind reply, we thank you for your time and send you our best regards.
